Election Notice

Your section's yearly elections will be conducted at the May meeting. If you are interested in running for any position (officer or committee), or if you have someone you'd like to nominate (please ask them first) please contact the [Section Secretary](#). Current membership is not required for your indication of interest, but it is required should you be elected. For more information about how your section runs, please refer to our [mission statement](#).

April Meeting Notice

**Everything You Always Wanted To Know About Gain
Structure
with
Mark Rogers
and
JJ Johnston**

**Sponsored by the AES PNW Section
Mackie (Woodinville)
7:30pm, Thursday, April 28, 2005**

Getting the gains and losses in a sound system distributed correctly is easily the most confusing, misunderstood, and misapplied concept in system design or use. Witchcraft, old wives tales, tribal knowledge, and just plain wrong thinking abound.

How do you get it right?

Join us on April 28, 2005 when two of our resident experts on such matters, Mark Rogers ably assisted by JJ Johnston, cut through the fog and deliver a definitive presentation that dispells the myths, witchcraft, and misconceptions of this important topic.

Learn to do it right!

We'll see you at the meeting!

Directions
