AN UNHINGED EVENING WITH SYLVIA MASSY

You're invited to join the Pacific Northwest Section of the Audio Engineering Society at DigiPen Institute of Technology for a truly inspiring, unforgettable, and UNHINGED evening with the iconic recording engineer, producer, and audio experimentalist, SYLVIA MASSY!

Tuesday, July 9, 2019, 7:30 PM

FREE EVENT! (AES and NON-AES MEMBERS)

DigiPen Institute of Technology

9931 Willows Road, Redmond, WA 98052

She's the unpredictable producer and engineer renowned for her work with Tool, System of a Down, Johnny Cash and Prince. She's received over 25 gold and platinum records including awards for her work with the Red Hot Chili Peppers, Sevendust and Tom Petty. She's also an accomplished fine artist, a published columnist, in-demand educator, and relentless entrepreneur. But to her many friends, she's just Sylvia, the Radiant Being.

Sylvia's recent book, *Recording Unhinged*, dares you to abandon safe record-making, to get out from behind the windshield, stick your head out the sunroof, and put the pedal to the metal! Sylvia Massy and her cohort of celebrity music industry producers, engineers, and recording stars discard fixed notions about how music should be recorded. They explore techniques that fall outside the norm and yield emotionally powerful, incredibly personal, gut-wrenching, and even scary recordings.
