## March 1993 Meeting Notice

---

### “Bad Animals Studio X - After Completion”

**DATE:** Wednesday, March 17, 1993 - 7:30PM

**PLACE:** Bad Animals Studio X (Lawson Productions)  
2212 4th Avenue, Seattle

Last year (actually November 1991) we had the opportunity to visit this \$2 million studio while it was under construction. It has been finished and booked for several months now. Heart has just finished tracking and mixing their new album there, providing us with a rare open evening to visit Studio X. We now have a chance to see the finished facility and listen to their unique monitoring system. Bad Animals chief engineer Jim Haviland will be present to conduct a tour and answer questions. Don't miss this chance to see one of the Northwest's premiere studio facilities. (For a preview, look on the cover of the latest MIX magazine)

NON-MEMBERS ARE WELCOME TO ATTEND

### 1992-93 Officers and Committee Members

<i>Chairman</i> Al Swanson Location Recording 527-0318	<i>Vice-Chairman</i> Van Browne Northshore Marketing 284-9699	<i>Secretary</i> David O.
