Elections

Elections have been held, and the slate nominated was elected. We welcome new Committee member, Lawrence Schwedler, of Digipen, to the Section Committee, and former Committee member, Daniel Casado, who is returning after reclaiming his life from his job. A heartfelt thank you to Dave Franzwa for his years of service as Treasurer and to Rob Baum for his service on the Committee.

June Meeting wrap

The June meeting was held, with a good turnout. Attendees left with a good sense of what a CAT5 cable is all about, and an understanding of how it's used for digital audio transport. The full [meeting report](#) can now be found on the Section website, along with the audio recordings of the day.

If you missed the meeting, some of the materials are still available:

[LINK](#) does a good job of explaining which parameters are of interest when evaluating a CAT cable.

A white paper, by Rick Rodriguez, that describes in some detail, the basics of digital audio data transmission over twisted pair (UTP) cable. [Click Here \(450kB pdf\)](#)

Summer Vacation

With the June Section meeting behind us, we now pause for the summer, as much because we don't want to compete with your vacation plans, (as well as our own,) and because we all need to recharge our batteries. We'll have a planning meeting in August to brainstorm about the coming year. If you have a suggestion, idea, or are willing to present to the group, please contact me or any of the other officers or committee persons.

Have a great summer. We'll see you again in the fall.

Dave Tosti-Lane

AES PNW 2013-2014 Section Chair

If you would like to be notified in advance of our meetings, you can send a request via: [THIS LINK](#) Please note that we no longer send anything via USPS.

Our meetings are open to anyone interested in Audio. AES membership is NOT required for you to attend our meetings.

If you have a topic that you would like to present at a Section meeting, or if you have a topic that you would like presented at a Section meeting, please contact the Section Chair or any officer or Committee member.

The Audio Engineering Society, now in its sixth decade, is the only professional society devoted exclusively to audio technology. Its membership of leading engineers, scientists and other authorities has increased dramatically throughout the world, greatly boosting the society's stature and that of its members in a truly symbiotic relationship.
